RE: Microsoft Settlement

Dear Attorney General Ashcroft:

We have had Microsoft Windows on both of our computers, as well as, our previous computers, and use the internet extensively; however, we have never used the Microsoft Internet Explorer product that was "maliciously" bundled with the Windows Program. We preferred to use our local internet service provider and Netscape.

We are writing to you today to express our opinion in regards to the antitrust case being settled with Microsoft. We feel that this has drawn on long enough, and we would be truly relieved to see this issue settled. We sincerely hope that there will be no further action against Microsoft, as settling with this company would be in the best interest of our economy, which certainly needs all the help it can get at this time.

We are happy with this settlement and believe it is fair. Thank you for your time and effort in reaching an agreement with Microsoft. Also, thank you for the great job you are doing for our country, during this time of crisis.

Sincerely,

Charles Monfradi  
Dolores Monfradi
